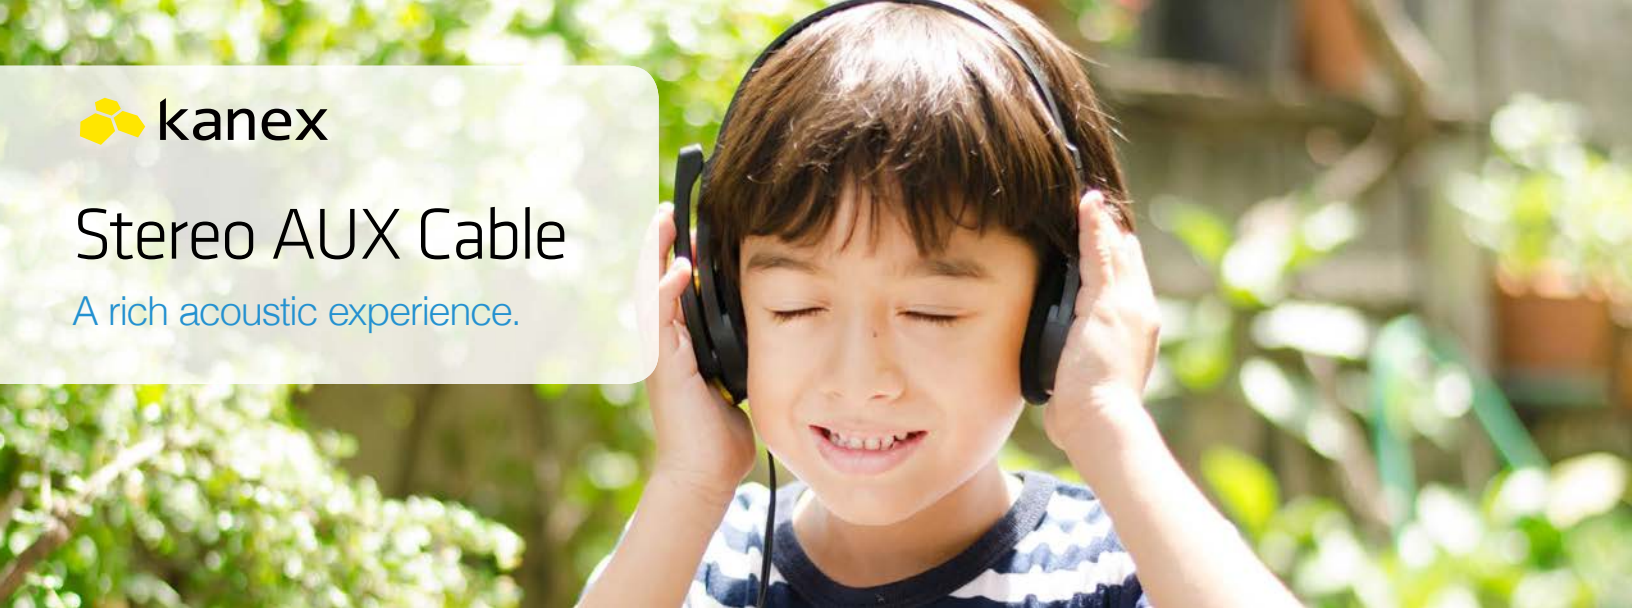
Stereo AUX Cable

A rich acoustic experience.



The Stereo AUX Cable lets you connect your favorite media device to a car or home speaker system. It works with any device that has a 3.5mm auxiliary port, including smartphones, MP3 players, media players, tablets, and laptops.

Premium gold-plated connectors provide superior signal transfer, giving you the rich acoustic experience your ears crave. You never have to worry about damage to the connectors – the gold-plated tips are corrosion-proof, providing maximum conductivity.

Key Features

- Connects via 3.5mm auxiliary connector
- Works with smartphones, MP3 players, tablets and other portable devices
- Connect to car or home stereo AUX-input to play music through your speaker system
- 24k gold-plated plugs
